

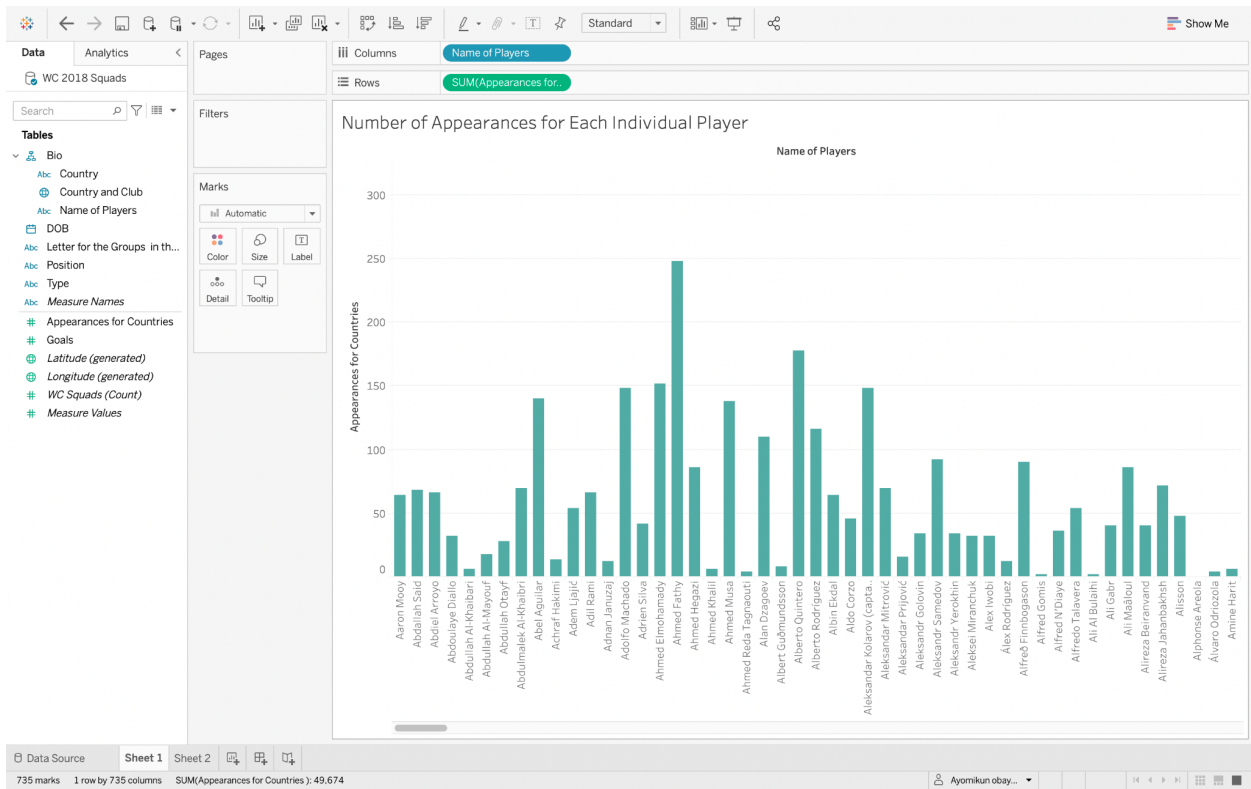

Figure 1:  
Bar chart

Refined Chart Type: Highlight Text Field

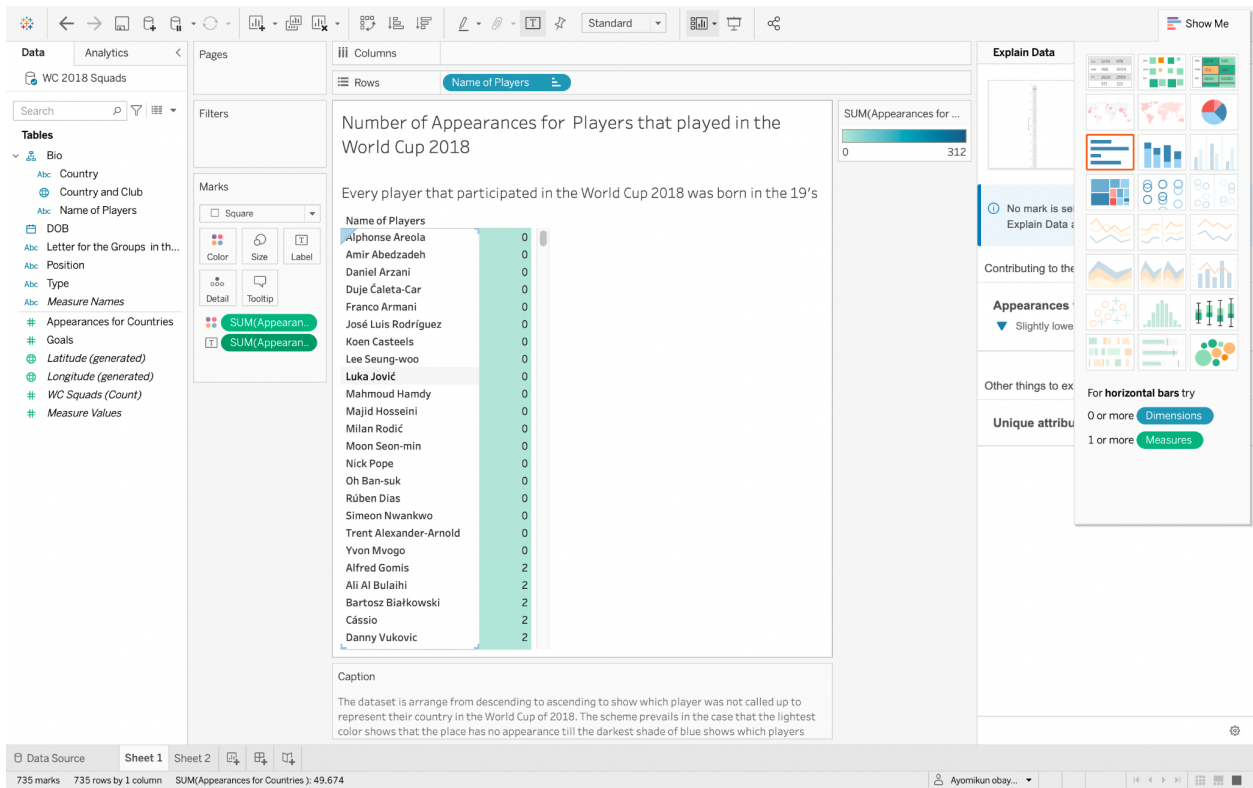

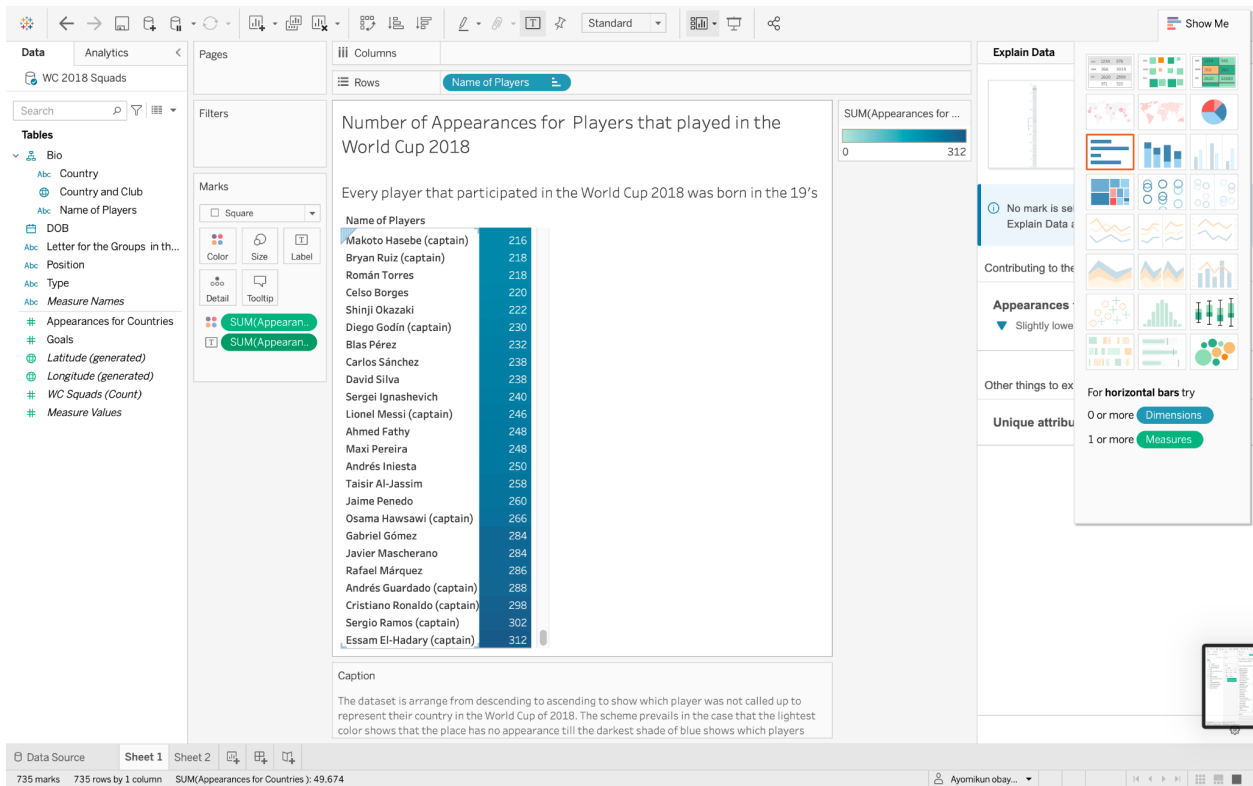

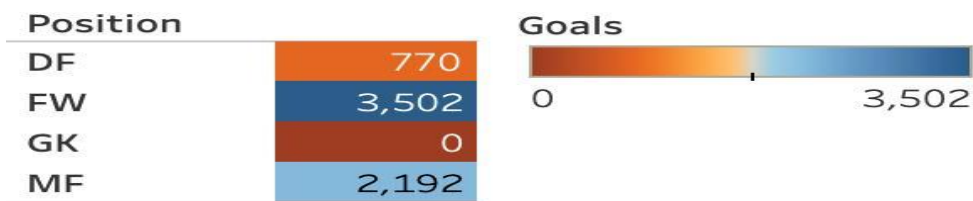

Figure 2: Didn't change anything because I felt that the highlighted graph substantially portrayed my data

The amount  
of goals  
scored by  
each positon  
in 2018

The table  
highlights which  
position in  
football wins you  
games

In this dataset, we have four positions that were influncial in their own contributions such as goals in this instance. The position DF means Defender as in a Centre-back, FW means Forward as in a striker, GK means a goalie and a MF means Midfielder.
